

VISITS

Please note that according to the new ministerial directive, visits to residents are now permitted under certain rules.

If there are cases of COVID-19 in the residence, please contact the Director General before your visit.

When you arrive at the residence, you must go to reception and complete the check in form and sign the register. Your temperature will also be checked at this time.

Inside, visits are allowed only in the resident's rental unit and the maximum number of visitors is 2. No visitors are allowed in common areas, except for travel directly to and from the resident's unit.

Outdoor meetings, with a maximum of 10 visitors, are also allowed according to the same criteria.

We remind you that compliance with hygiene rules (hand washing and wearing a mask) is mandatory and that you must observe the distance of 2 meters during your visit.

We count on your collaboration to comply with the rules and instructions for preventing infections issued in residence during your visit.
